

Regionally, and globally, we are changing our environment
Do we know where we are heading?

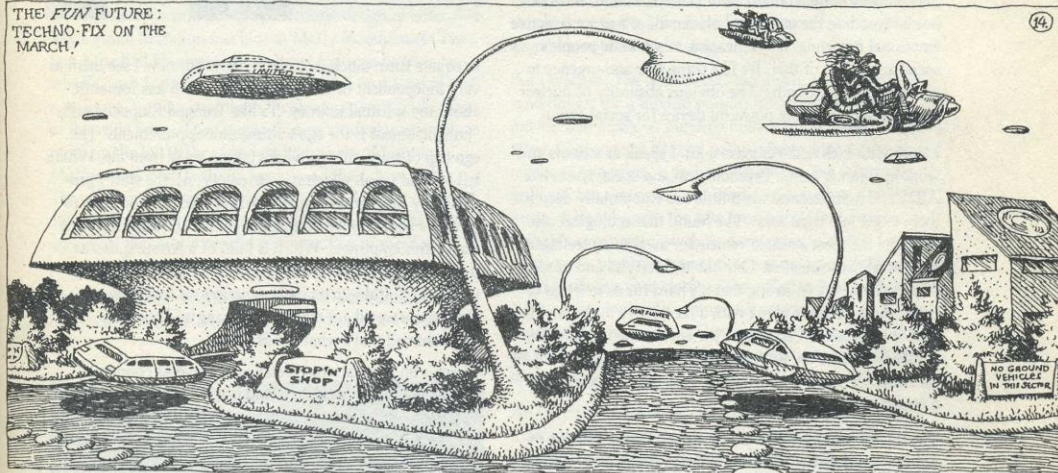

(R.Crumb)

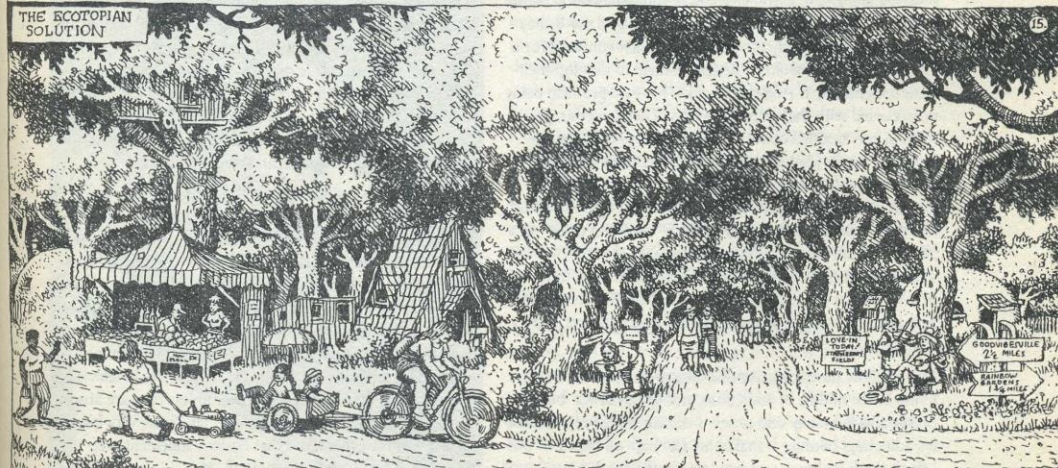

WORST CASE SCENARIO:
ECOLOGICAL DISASTER.

THE FUTURE:
TECHNO-FIX ON THE
MARCH!

THE ECOTOPIAN
SOLUTION

Worst-case scenario

Hip scenario

Soft-path scenario

(R.Crumb)

Which path are we on?

- 1) Worst-case scenario**
- 2) Hip scenario**
- 3) Soft-path scenario**
- 4) Don't know**

Why do we investigate “atmospheric processes?”

1. We need to plan for the future
2. Planning requires ability to predict the future
3. Prediction requires understanding of the processes and how they operate within the earth-atmosphere system

Success Story – The Clear Air Act
